

CIKM 2026 Resource Track — Submission Guide

ProvBench-RAG

May 2026

1 Chosen track: Resource (highest fit)

Submit to: CIKM 2026 Resource in EasyChair (not Full, Short, or Applied).

Why: ProvBench-RAG is a benchmark package (JSONL + code + reference baselines). Resource reviewers expect datasets, DOI, documentation, and utility—not a deployed product (Applied) or a 10-page novel method (Full).

2 Deadlines (11:59pm AoE)

Step	Date
Abstract + authors in EasyChair	May 30, 2026
Paper PDF upload	June 6, 2026
Notification	August 7, 2026
Camera-ready (+ Zenodo DOI in paper)	August 20, 2026

3 Step 1 — EasyChair abstract (May 30)

1. <https://easychair.org/my/conference?conf=cikm26>
2. New submission → **CIKM 2026 Resource**
3. Title and abstract from `paper/abstract_easychair.txt`
4. Real author names and affiliations (single-blind; names go on the PDF too)
5. Nominate ≥ 1 author as reviewer

4 Step 2 — Edit paper (before Overleaf)

In `paper/main.tex` replace:

- Author names, affiliations, emails
- GitHub URL (`YOUR_ORG/ProvBench-RAG`)
- Zenodo DOI after upload (`10.5281/zenodo.XXXXXXX`)

5 Step 3 — Overleaf PDF (by June 6)

1. Run `bash scripts/package_overleaf.sh`
2. Upload `paper/overleaf_bundle/` to Overleaf
3. Main file: `main.tex`
4. Compile pdfLaTeX + BibTeX
5. Check: ≤ 4 pages of content (appendix counts toward 4); references extra
6. Download PDF

6 Step 4 — Zenodo DOI

Follow `ZENODO.md`. Resource track expects a citable archive. Add DOI to paper before camera-ready; June submission may say “pending” if upload is in progress.

7 Step 5 — Upload paper (June 6)

Same EasyChair submission $\rightarrow$ upload Resource PDF.

8 Desk-reject checklist

- Track = Resource
- 4-page limit respected
- Authors on PDF (single-blind)
- Reviewer nominated
- GitHub link works; dataset documented in `corpora/DATASET.md`
- Zenodo planned or cited
